Emery County School District

Title I Parent Engagement

Emery County School District believes that parents are the initial teachers of students, and serve as partners with the district in helping children achieve academic success. ECSD regards parental involvement as being vital to the academic success of students.

- ECSD will engage parents in the development of a district parent engagement policy.
- ECSD will engage parents in the process of District review of, and improvement to the Parent Engagement Policy.
- ECSD will provide needed district information to Title 1 school administrators to be shared with parents when reviewing for improvement and accelerating student academic success.
- ECSD will provide coordination and technical assistance to promote quality parental engagement activities
- ECSD has the expectation that all students can and will learn at high levels.
- ECSD will provide support for implementing and coordinating parent programs that build ties between district and schools.
- ECSD will provide personnel who can translate key documents into languages that parents can easily read and understand. Such documents will be posted on district web site.
- ECSD will provide program information for parents about state standards and academic content; offer assistance with understanding state and local assessments
- ECSD will provide support to parents of Pre-K children to better help them get ready for kindergarten.
